

## HIGHLIGHTS

- WaterMark Certified AS/NZS 3497
- Compact 10" Design for Undersink Installation
- Suitable for Mains Water or Tank Water
- Quick Change Cartridge - Easy Maintenance
- For use with existing taps or appliances
- High Flow Rate - Up to 8L/Min
- Reduces Pesticides & other hazardous chemicals
- Inhibit Limescale to protect pipes & fixtures
- Removes Heavy Metals from Water

## HIGH FLOW HEAVY METAL FILTER SYSTEM

The HPF® EPA Quick Change Cartridge provides your family with clean, fresh great tasting water suitable for use in a wide range of applications.

Simple and effective water filtration with their combination of high-performance carbon, unique binders and proprietary manufacturing processes, these systems deliver minimal drop in water pressure, high dirt holding capacity and excellent contaminant reduction.

With a low rating of 0.5 Micron for particulate filtration, this filter reduces contaminants including cysts such as Giardia and has bacteriostatic properties.

The HMR cartridge combines 3 main principles of filtration into 1 compact 10" Filter cartridge including Particulate Filtration, Limescale Prevention and Chemical & Heavy Metal Reduction.

## SPECIFICATIONS

<b>Operating Pressure</b>	10 psi (69 kPa) - 125 psi (860 kPa)
<b>Operating Temperature</b>	4°C - 55°C
<b>Tested Flow Rate</b>	4L/Min for >85% Reduction
<b>Maximum Flow Rate*</b>	Up to 8L/Min
<b>Service Life (Litres)</b>	12,600L > 85% Reduction
<b>Service Life (Time)</b>	12 Months
<b>Initial Lead Reduction Rate</b>	>99%
<b>Head Cap Ports</b>	3/8" Female
<b>Compatibility (Head Cap)</b>	Everpure, Pentair, WFA HiFlow (Pre-2017)
<b>Superior Replacement For</b>	Everpure 2CB-GW
